

27th March, 2014

Dear Maria, Tony and Brian,

On behalf of the Foundation for Water & Education, Cambodia (FWEC), I would like to thank you very much for your generous support. We received your contributions for a construction of house and now the house is completely done.

Your commitment to helping the people in need in our communities is sincerely appreciated.

Each year the FWEC continues to advance its mission of installing the water wells to provide clean water for the poor people in rural communities. Through our programs of Clean Water we have seen many lives changed for the better. By having water, they become self-sustainable by planting additional crops for a more balanced diet and creates an economic opportunity by enabling the family to sell excess produce at the market.

In addition, House Building is the component of project which the FWEC was established to help raise and improve the livelihood of the Cambodian people in need and that do not have the resources to pay for the construction of the building on their own. With this initiative of House Building project, FWEC works with the chief to calling for the neighbors of the family to help building the house for this family.

The goal of the FWEC is to continue to make a difference. With the help of donations from supporters like you we will continue to see improvements in our Clean Water project and other components projects. Thank you again for your generous support FWEC. We feel the ongoing, positive results of this endeavor will benefit our community for years to come.

We are sincerely grateful for your support. Please do not hesitate to contact me should you have any further questions.
