

15th January, 2014

Dear generous donors,

On behalf of the Foundation for Water & Education, Cambodia (FWEC), I would like to thank you very much for your generous support. We received your contributions for the construction of water wells and bicycles and now those wells are completed and the bicycles are delivered to the children for transfer to school.

Your commitment to helping the people in need in our communities is sincerely appreciated.

Each year the FWEC continues to advance its mission of installing the water wells to provide clean water for the poor people in rural communities. Through our programs of Clean Water & Education we have seen many lives changed for the better. By having water, they become self-sustainable by planting additional crops for a more balanced diet and creates an economic opportunity by enabling the families to sell excess produce at the market.

In addition to Education program, having bicycles allows the children to make it to school much quicker and still have time to help the family in the fields. It may sound like hard burden for a child, but the whole family is aware of how having that education will help the entire family to prosper

The goal of the FWEC is to continue to make a difference. With the help of donations from supporters like you we will continue to see improvements in our Clean Water project and Education Program. Thank you again for your generosity support FWEC. We feel the ongoing, positive results of this endeavor will benefit our community for years to come.

We are sincerely grateful for your support. Please do not hesitate to contact me should you have any further questions.
