Dear all value donors,

Thank you for your recent donations of US\$2,637.34 to support the Clean Water & Education Project (CWEP). We are grateful you have responded to our need for help with such compassion and generosity.

Our mission as a humanitarian work is to identify the poor communities and families who are in desperate need of the basic necessities for living a healthy life. Through our efforts and with the support of our donors we are working to bring clean water, better nutrition and an opportunity for a better education to those in need in rural Cambodia.

With the help of donations that we received from you is used to install the pump wells in order to have the clean water for those families in need in a rural village of Siem Reap province. The amount of your donations we have succeeded on installing the 13 pump wells within two villages.

We appreciate your effort and generosity that you have done to ensure that the poor Cambodian people have clean water to drink and changes the way of life from drinking muddy water of pit wells. Especially, the pump wells enabling families to enjoy better health in addition to having water for additional crops during the dry season.

We can do our work only because of the ongoing support we receive from people like you. Offering a simple "Thank You" for your donations never quite feels like it's enough to me, because what you've done is help them save lives. The best I can do is telling you how much we appreciate your support the CWEP. We hope we can continue to demonstrate to you that we value your support and that we use it wisely to provide the help that people are in need.
